Sugar Is the Principal Feature of the Market.

JUGGLED DOWN AND UP PROFESSIONALS MANIPULATE A SQUEEZE OF THE SHORTS.

No Substantial Reason Can Be Found For the Final Advance—Tobacco Acts in Sympathy—General List Is Sluggish and Depressed—Northern Pacific Firm.

New York, May 22.—Sugar certificates coupled the stock market today, to the practical exclusion of other considerations. The apathy and lassitude of the market was so pronounced that the professional traders to a search for some medium of operation and they gave themselves up to speculative trading in sugar.

The stock's extreme range was 7 1/2 points and the net gain was 4 1/2. In the opening dealings the price went down, in continuation of yesterday's depression. After declining 1 1/2 the advance began, and it had not proceeded far before the shorts began to rally, and the market was pushed to cover, pushing the price up to the maximum.

The general list continued in a slough of despondency and moved the other way with greater difficulty. Opening prices were lower in sympathy with London and there was a midday rally with sugar shot upward and Chicago Northwest corn was marked up 1/2. Northern Pacific was comparatively firm on a good statement for the second quarter.

Sterling exchange here was decidedly easier, but it is considered not impossible that some gold may be credited to Paris tomorrow.

The bond market became dull and irregular again today. Total sales, par value, \$1,300,000. United States refunding 2 1/2, when issued, declined 1/2. The old 4 1/2 and 5 1/2, and the new 4 1/2 and 5 1/2, in the bid price.

Stocks in London.

New York, May 22.—Commercial Advertiser's London financial cablegram: The markets here were extremely quiet today, with an incline in the price of gold, but they improved slightly at the close. The foreign was devoted by the members to the discussion of the market.

The only unfavorable views accepted were the probable financial ministerial crisis over the tariff, and the possibility of a loan to Russia in Korea. The news that Lord Roberts had reached the canal zone and home rails were the flattest.

Americans were neglected and were slumped. The final closing was 100. Ohio leading on New York support. 1 cannot confirm the rumor that the Wall Street houses here are depressing the market. Political uneasiness in Paris caused French operators to unload copper shares. There was some discussion of possible action on the bank rate next Thursday but the general opinion is that the rate will not be reduced.

Weather Dominant Factor in an Unchanged Market.

Chicago, May 22.—The wheat pit kept its weather eye on the clouds floating over the northwest today. The night had furnished no moisture to the soil in that section, and this, together with Liverpool cables which did not reflect the decline in prices, mostly in the hands of speculators. Following the opening July sold down to 96 1/2, but later recovered 1/2 point to 97 1/2.

The corn market acted heavily because there were damage reports from Illinois, Tennessee, Kentucky and Indiana. A Springfield, Ill., report stated that this state promises very poor. The close was steady, with July unchanged at 96 1/2.

How Mr. Kiesel Found Eastern Sentiment.

Democrats Are United and Are Getting in Line—War Tax Unpopular in Time of Peace.

Hon. Fred J. Kiesel, who is just back from an extended visit through the east and south, says there is a general impression growing that Bryan will carry New York at the coming presidential election. The Democrats of the Empire state are getting in line and are united. The war tax is very unpopular now that the war is over.

As an illustration, it was pointed out that the big brewing concerns, with their numerous ramifications and thousands of employees, would this year be for Bryan.

Mr. Kiesel said he was often asked how would Utah stand at the coming election, and he answered the question by referring to the special election, when the Democratic party stood by its principles and gave a big Democratic majority.

The south Mr. Kiesel thinks, is as safe as ever for bimetalism.
